

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 8th Jan^y, 1883.

Sir,

The N^o 70 Black Lead Melting Pot, made by John A. Taylor, of this City, will cast about 3100 oz. of Coin Silver, with a moderate allowance of working space. The N^o 150 Pot, of the same form, will cast about 8000 oz. of Coin-silver. The dimensions of these last are, 13 inches interior diameter at the top, with a depth of about 17 inches, also interior, (or in the clear).

Very respectfully

J. C. Booth

Hon. A. Loudon Snowden,
Superintendent.
